

Enable Dental

ON-SITE DENTAL SERVICES

On-site dental care in the patient's home, day hab, or community (decreased transportation, staffing, and office wait times)

Portable technology (handheld digital x-ray units, custom dental chairs, and wheeled dental units)

Full-service offerings from preventive exams and cleaning to fillings, extractions, partials, and dentures

Appropriate IPC utilization and documentation of services to ensure survey satisfaction

Enable Dental strives to enhance **health equity** and eliminate **barriers to health disparities** by providing patient-centered dental services to **adult and special need populations** through a non-traditional, innovative model of portable, **at-home dentistry**.
